

STAFF CASE STUDY

DFN PROJECT SEARCH

Dimple is a job coach and instructor working with Gateway College's Project Search student interns at De Montfort University

One of the most rewarding aspects of her role is seeing the student interns exceeding her expectations:

"I am so grateful to see my learners develop themselves as they take on the daily tasks at various levels of challenges in the workplace."

DIMPLE SHIVA

"I would love to see some of the interns become future employees at the Food Village and other outlets at De Montfort University after they have completed their internship."

As an instructor, Dimple leads teaching sessions every afternoon at the end of each intern's work shift.

As part of the lessons, she covers employability skills such as writing a CV and preparing a presentation.
