

**INTITHAR AHMED**

Intithar is a member of Clinical Support in the Outpatients Department at Glenfield Hospital.

Some of her daily tasks include:

- Preparing hot drinks and snacks
- Cleaning equipment in the kitchen area

“I like cleaning, I am good at it. I have been given positive feedback about my cleaning skills. ”

“ In the future, I would like to work with and support children. I would like to work as a teaching assistant in a school.”

Intithar will be communicating to the Catering department using the telephone to place food orders as part of her job role.

She finds it hard to speak on the phone so this will be a task that she is feeling nervous about tackling.

“Intithar is really enjoying herself...A sign of her being happy is when you ask if she enjoys her job, she gives out a big smile.” - Noreen, Job Coach
