

STAFF CASE STUDY DFN PROJECT SEARCH

DEPARTMENT STAFF AT UHL

“Project Search has provided us with a unique opportunity to help forge the lives of young people with additional needs into employment, and allowing us to make a huge impact on their lives.”

**Nick Henson,
Radiology Department
Manager at Glenfield Hospital**

“Project Search is a brilliant initiative and it is a privilege to be a part of. Having intern Intithar in the Outpatients Department has been both inspiring and grounding.”

“All of the OPD team were on board as soon as they heard about the project, without that we wouldn't be able to support an intern in the department. We are hoping that our intern will flourish and become a permanent member of team UHL.”

**Laura Kerr, Deputy Sister at
Glenfield Hospital Outpatients Department**
