

SARA

T LEVEL HEALTH - ADULT NURSING

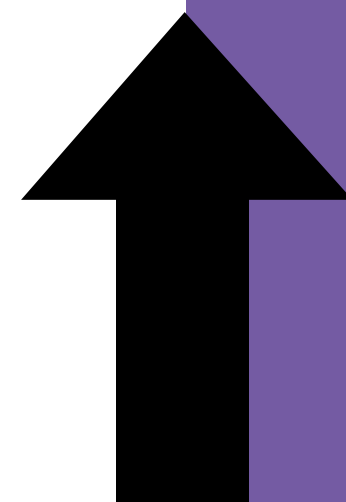

***STUDENT
SPOTLIGHT***

Sara has achieved a Distinction in her T Level course

“After finishing at Gateway College, I will join University of Leicester to continue studying nursing. I will be doing the Dual Field Access course in Adult Nursing and Mental Health – 4 year course and I will receive a Masters Degree at the end.”

“I would definitely recommend the course to anyone wanting to choose a career in Health because this course has made me into a confident, compassionate student who has also developed the 6C’s which is key in Nursing.”

Memories at Gateway College

“I enjoyed meeting and making new friends that I know will be with me for life. I have also enjoyed getting to talk to other students about why they should join our course and all the things I have learnt at college, for example the Open Events.”

“Most importantly, I have loved all the lessons I have had with my two teachers. If it wasn’t for their passion for teaching and complete dedication to helping me grow into the person that I am today has inspired me in ways I cannot put into words.”

“I am also grateful to my tutor for shaping my future and he ensured that I leave college with the right knowledge I needed to create the perfect career path with me.”

Sara's advice

"...Even if you aren't 100% what course or career pathway you want to go into, it's completely okay because there are thousands of other students who have been in the same position as you, including me."

"Choose the path that is correct and made for you, not the one that is the easiest because no matter what you choose, some challenges will come your way but you have other peers to support you and help you along the way."

"You just need to remember not to give up and keep going, no matter how hard something may get."
