

***ZAKIA***

***T LEVEL MANAGEMENT &  
ADMINISTRATION***

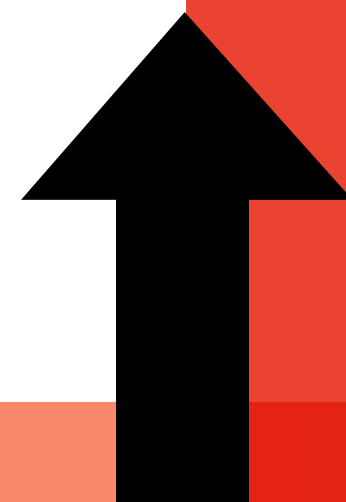

***STUDENT  
SPOTLIGHT***

**“I chose this course because I liked how the exams were spread out unlike with A Levels and also the work placements. I did my placement at DMU with the Widening Participation Team.”**

## **Zakia was part of Gateway College’s first cohort of T Level qualifications**

**“I would recommend the course, especially if you get stressed about exams because they are spaced out and two take place in the classroom under supervision. There is lots of support with preparation for the exams and additional revision workshops.”**

**“The T Level in Management and Administration is a perfect to prepare me for this as we covered lots of content about International Business Affairs and the role government plays in business through regulation and legislation.”**

**“We also looked at potential relations between countries and what influences this, for example, red tape and permissions for airspaces.”**

**Next steps:  
BA (Hons) Politics  
and International Relations  
at University of York**
